Attachments: Back Pocket QA - 24(c) Re-evaluation 2019.docx

If it helps, here is the most recent version of the back pocket Q&A that Rick approved. I flagged the areas that are NOT yet confirmed, pending direction from the Administrator.

The non-highlighted sections are probably okay to share publicly, but we'll have to get confirmation.

Subject: RE: 24c at Dec. 10 SFIREG meeting

In my discussions with OCSPP/IO, they recommended we “defer” this action in our reports (meaning it could be delayed indefinitely).

I agree with Mike that the states will want to discuss. My initial advice is to use this more as a listening session to hear from states. I'll let you know if we get any further direction from IO on messaging.

It is likely to come up by the states regardless, so suggest we keep it on and be prepared to discuss.

I don't have the latest on this yet, so we will need to consult with the IO as we get closer to determine what our message will be.

Subject: 24c at Dec. 10 SFIREG meeting

Hi Mike and all,

FEAD received word from the Administrator's office that a FRN for 24c will not be posted in advance of the SFIREG meeting. Does RD want to consider removing this topic from the closed door session?

Thanks to Bo and Claire for their previous quick responses on this, I was unaware of the Administrator's direction when I emailed earlier today!

Thanks, Yvette!

Sandra – I don't care about the order for our names on the agenda, however I'll most likely do most of the talking since I wrote the document.

Enjoy the day.
Bo

Subject: 24c at Dec. 10 SFIREG meeting

Hi Bo,

I work in FEAD where we're preparing for the State FIFRA Issues Research and Evaluation Group (SFIREG) meeting taking place Dec. 9-10 here in PYS. Dec. 10 is a "co-regulator working session where EPA and State Lead Agencies will have closed door discussions (no press, industry, or general public) on topics of importance to states and EPA. To that end, they've requested a 15 minute session on Section 24c. I understand this may fall in your branch. Could we work with you to identify someone who can speak to this issue?

Here's a snapshot of the session slot on the agenda:

10:00 am

Section 24c

EPA is re-evaluating its approach to reviewing FIFRA Section 24(c) requests, and the circumstances under which it will exercise its authority to disapprove those requests. A discussion including the status and ongoing concerns regarding the implications for pesticide regulatory programs. [TBD, EPA]

Thanks in advance for any info.,

Sandra O'Neill
